It never ceases to amaze me how far reaching the Silk Route is. I love envisaging the sights, sounds and smells of the bustling markets, where people from all walks of life would have intermingled.

The ancient routes which make up the Silk Road are lined with fascinating places to explore. We feel that the best way to experience it is in smaller chunks, allowing you to immerse yourself fully in a particular destination or region. Tour the desert trading cities of Uzbekistan, uncover Albania's Silk Road heritage or perhaps spend time in Xi'an - the Chinese city which marked the start (or end) of the route.
